

Writer's Workbench License Fees

Site Licenses

Writer's Workbench operates from within Microsoft Word. That relationship between Writer's Workbench and Microsoft Word eliminates network aggravation, saves on costs, and provides exceptional writing instruction and writing analysis tools.

Writer's Workbench site licenses are based on the number of students enrolled on campus. New releases, support, professional development training, and maintenance updates as well as the continued use of Writer's Workbench are available as a part of each recurring annual license fee. The first year's support is included in the first year total price.

Site license customers with "instructors at home use" pay only 10% first-year additional fee.

First year and annual license fees and part numbers apply as stated below.
